Tell about the Vampire Diary's

Chapter 2 by Klaus

Steffen first saw Elena and blah blah blah had to get to know her bc she looked exactly like Katherine who he loved over one hundred years ago then she meets his evil, but hot brother, Damon. As a matter of fact taylor and I love him and his personality. Elena hates him and then realizes that they are vampires and it sounds really cheesy but its soooooooo good;) Damon hates steffen bc back in 1864 (the year they turned) steffen forced damon to feed in order to complete the process of turnig into a vampire. In order to transition you have to die with vampire blood in your system damon and steffen were also both in love with katherine and then the toom and her coming back then elena switching brothers then the originals who i love btw and then silas and witches and weirwolves and hybrieds and moonstones and curses and love and blah blah blah don't feel like typing even tho i have a lot to say.....

Chapter 3 by Hunterscode

Yassss! Bonnie Bennett clayssss! I love her sooo much. Klaus just made my uterus explode when i first saw him, especially Damon. I adore his dark yet mysterious aura around him.

Chapter 4 by Cerlex

Guys!!!! You forgot about the dynamic of the friendships.

So yeah, there's a lot of cheesy love, but I must say, if I had friends like Elena Gilbert, we'd take over the world.

In other news, you need to hop on Netflix and check it out from season 1. Then, hop on The Originals train because that's even better than The Vampire Diaries.

Chapter 5 by jessi phrampus

The Vampire Diaries is kinda simply.

Elena Gilbert is 17 years old she lost her parents one night after their car went off a bridge she survived because Stefan pulled her out.

the first day of Senior year Stefan joins school and Elena and Stefan have a connection

Chapter 6 by Save Me

But you can't forget that Caroline and Stefan had that thing in the last three season thought.

That was amazing, like there last scene together was so sad, but heartwarming. I ship Steroline so **HARD**.
